Technical data & submittal

PERFORMANCE

Capacity	6 L / approx. 1.59 US gal
Fire rating	1-A:K
Agent	Wet chemical
Working pressure	100 psi / 6.9 bar
Discharge time	51 seconds
Discharge range	10-12 ft / 3.0-3.6 m
Temperature range	40 to 120 F / 4 to 49 C

DIMENSIONS & WEIGHT

Overall height	19.30 in / 490 mm
Overall width	9.65 in / 245 mm
Cylinder diameter	7.07 in / 179.5 mm
Nominal unit weight	21.56 lb / 9.78 kg

CONSTRUCTION, MOUNTING & LISTING

Cylinder / handles	Stainless steel
Valve	Plated brass
Mounting	Wall hanger included
Product standard*	ANSI/UL 8
UL listing / model*	EX28016 / WC6L
Marine type	No

DIMENSIONAL REFERENCE

Overall width: 9.65 in (245 mm)

Cylinder diameter: 7.07 in (179.5 mm)

Nominal dimensions. Image not to scale.

INSTALLATION & CARE

Install and maintain per NFPA 10, product instructions and the authority having jurisdiction. Use the supplied or manufacturer-approved bracket. Qualified personnel must service and recharge.

APPLICATION LIMITATIONS

Do not use on energized electrical equipment (Class C), Class D fires, or water-reactive materials. Protect from freezing. Recharge immediately after any use.

5-YEAR LIMITED WARRANTY

Manufacturer coverage for defects in materials and workmanship, for the original retail purchaser, from date of manufacture. Repair or replacement, subject to manufacturer terms and exclusions.
